

# QuickClick

## 5 Gallon Bucket Dolly

**The 13" diameter four wheel dolly is designed for use with all models of the 5 gallon Quick Click bucket. Four heavy duty over molded quiet roll casters for easy movement. Two of the casters have a lock mechanism for stationary use if desired. Durable PP base will not warp or crack, making it suitable for smoothly moving 100 pounds with minimal effort. Wet and dry use compatible.**

**Cen-Tec**  
Systems

# Step-by-step Installation Guide

**1** Line up the dolly onto the bottom of the bucket.

**3** Flip the bucket and dolly upright while keeping them together.

**2** Drill a  $\frac{3}{16}$ " hole through the bottom of the dolly and bucket.

**4** Use a screwdriver to tighten the screw into the bottom of the bucket and through the dolly.
